PIKE-A-PALOOZA MONSTER PIKE TOURNAMENT CATCH-RECORD-RELEASE FORMAT/SCORING:

1. A team may have up to two (2) persons and must fish in the same boat. One (1) team per boat.
2. The Pike-a-Palooza Northern Pike Tournament is designed for “weigh-in” through a photo and scorecard process, referred to as the “CRR”: Catch-Record-Release. No fish will be brought to the “weigh-in stage”.
3. CRR requires the use of a digital camera or phone.
4. Participants agree to use the provided required official tournament ruler and Official Tournament Scorecard. Team members agree to work together to measure, photograph, and record their catch.
5. Only northern pike over 22 inches should be measured, photographed and recorded. There is no need to photograph the northern pike measuring less than 22 inches.
6. The Catch, Record, Release procedures will be reviewed at the Rules meeting. The general procedures are as follows:
 - Team participant #1 holds the fish on the official the Pike-a-Palooza Northern Pike Tournament ruler, or “The Judge”. The belly of the fish must face the person measuring the fish. The mouth of the fish MUST touch the bump plate on the ruler to the LEFT (Head to Left), and the tail is extended back to its maximum length on the RIGHT end of the ruler (Tail to the Right).
 - Both team participants must agree on the length of the fish to 1/4th inch accuracy. If the tail fin crosses a graduation on the ruler, the official length may be rounded up to the nearest one quarter (1/4) of an inch.
 - While the fish is being held on the ruler, a “scoring” photo must be taken of the fish which clearly shows the overall length of the fish. The HEAD and TAIL of the fish must be included and show clearly. The photograph must be taken of the LEFT side of the fish ONLY (belly towards the angler holding the fish, head to the left). A photo that does not clearly show the overall length of the fish, including head and tail, and the left side of the fish on the ruler WILL NOT BE SCORED. More than one attempt to get a valid scoring photo is allowed.
 - Another photo MUST be taken of the fish being held up by a partner. This “hero shot” photo MUST show the entire RIGHT side of the fish. These photos will be used for technical evaluation and may be used on stage during the awards ceremony or posted to Ruttger’s media outlets (web, Facebook, etc.).
 - The length of the fish is recorded on the Official Tournament Scorecard by team participant #1 and they initial the entry. If an error is made, the line should be crossed out and the next open line should be used to record the fish’s length.

- The fish is then immediately released by the participant holding the fish
- Record the length of the fish on the Official Scorecard and both partners should validate the length recorded for accuracy.
- In the instance when two or more fish are caught at the same time, the CRR process requires that one fish must be measured, photographed, and released as quickly as possible before next fish can be processed.
- In order to speed up the CPR process, while a fish is in the boat, anglers will Not be allowed to reset or place any fishing lines in the water. After all Fish are processed and released, normal angling may resume.

SCORING:

- At the completion of the tournament day, each Team will select up to THREE (3) fish to be counted towards their daily weight and designate these fish on the Pike-a-Palooza Northern Pike Tournament Official Scorecard. These are the only fish that will be scored. Then each Team will convert the lengths of each of the THREE designated fish to weight using a standardized Length-to-Weight Conversion Chart. The SUM of these THREE fish will be the Teams unofficial total weight for the day.
- BOTH partners are REQUIRED to sign the Pike-a-Palooza Northern Pike Tournament Official Scorecard to certify their catch.

The photos of each fish will be used for confirmation of length and to validate the Pike-a-Palooza Northern Pike Tournament Official Scorecard. NO validating PHOTOS or LOSS of the Pike-a-Palooza Northern Pike Tournament Official Scorecard will result in forfeiture of ALL WEIGHT that day.
- In the event a photo that designates a fish to be scored is judged as failing to meet scoring requirements, a replacement fish will not be allowed.
- In the event that TWO (or more) photos that designate fish to be scored are judged as failing to meet scoring requirements, the team will lose all weight for the day.
- Tournament standings and final results shall be determined by the converted weight of each Teams daily "limit".
- The official minimum length will be 22 inches; the tail MUST touch at least the 22-inch mark on the ruler.

- Two scorecards will be provided. If the first Scorecard should become damaged, it is permissible to transfer the data to the second Scorecard. BOTH Scorecards must be turned in at the check-in dock. Loss of the Official Scorecard will result in disqualification.
- Tournament standings, contingency awards and final winners shall be determined by the total converted weight of each team.
